## WINGED AVENGER

Bold, brash, fiery and fierce, Kairi Imahara isn't above greasing palms and bending the law. When she was a child, she stole a Titan. It belonged to her dad: callsign Viper. She wanted to be just like him when she grew up. But the next day he left on a mission and never returned. In some ways, she still followed in his footsteps: it wasn't a Titan, but her ship offered a decent living. Her personal life, however, was anything but. During the day, she smuggled precious cargo, and at night, went shot for shot with the outlaws and mercs in the bars. But even though she had her ladies, her liquor, and her love of the sky, she was still obsessed with finding the man who'd put her father in harm's way: his commander, Kuben Blisk.

She tracked Blisk down, prepared to kill him. But he spoke of her father with respect -- and challenged her to be better. She shot him anyway. But not to kill. Knowing she could.

### DID YOU KNOW?

Before becoming an Apex Legend, Valkyrie was a smuggler. She used her pilot skills to move products around the sparsely supplied Frontier--and if there were a few boxes with false bottoms, how was she to know?
