GRAND SLAM PROP GUIDE

GRAND SLAM

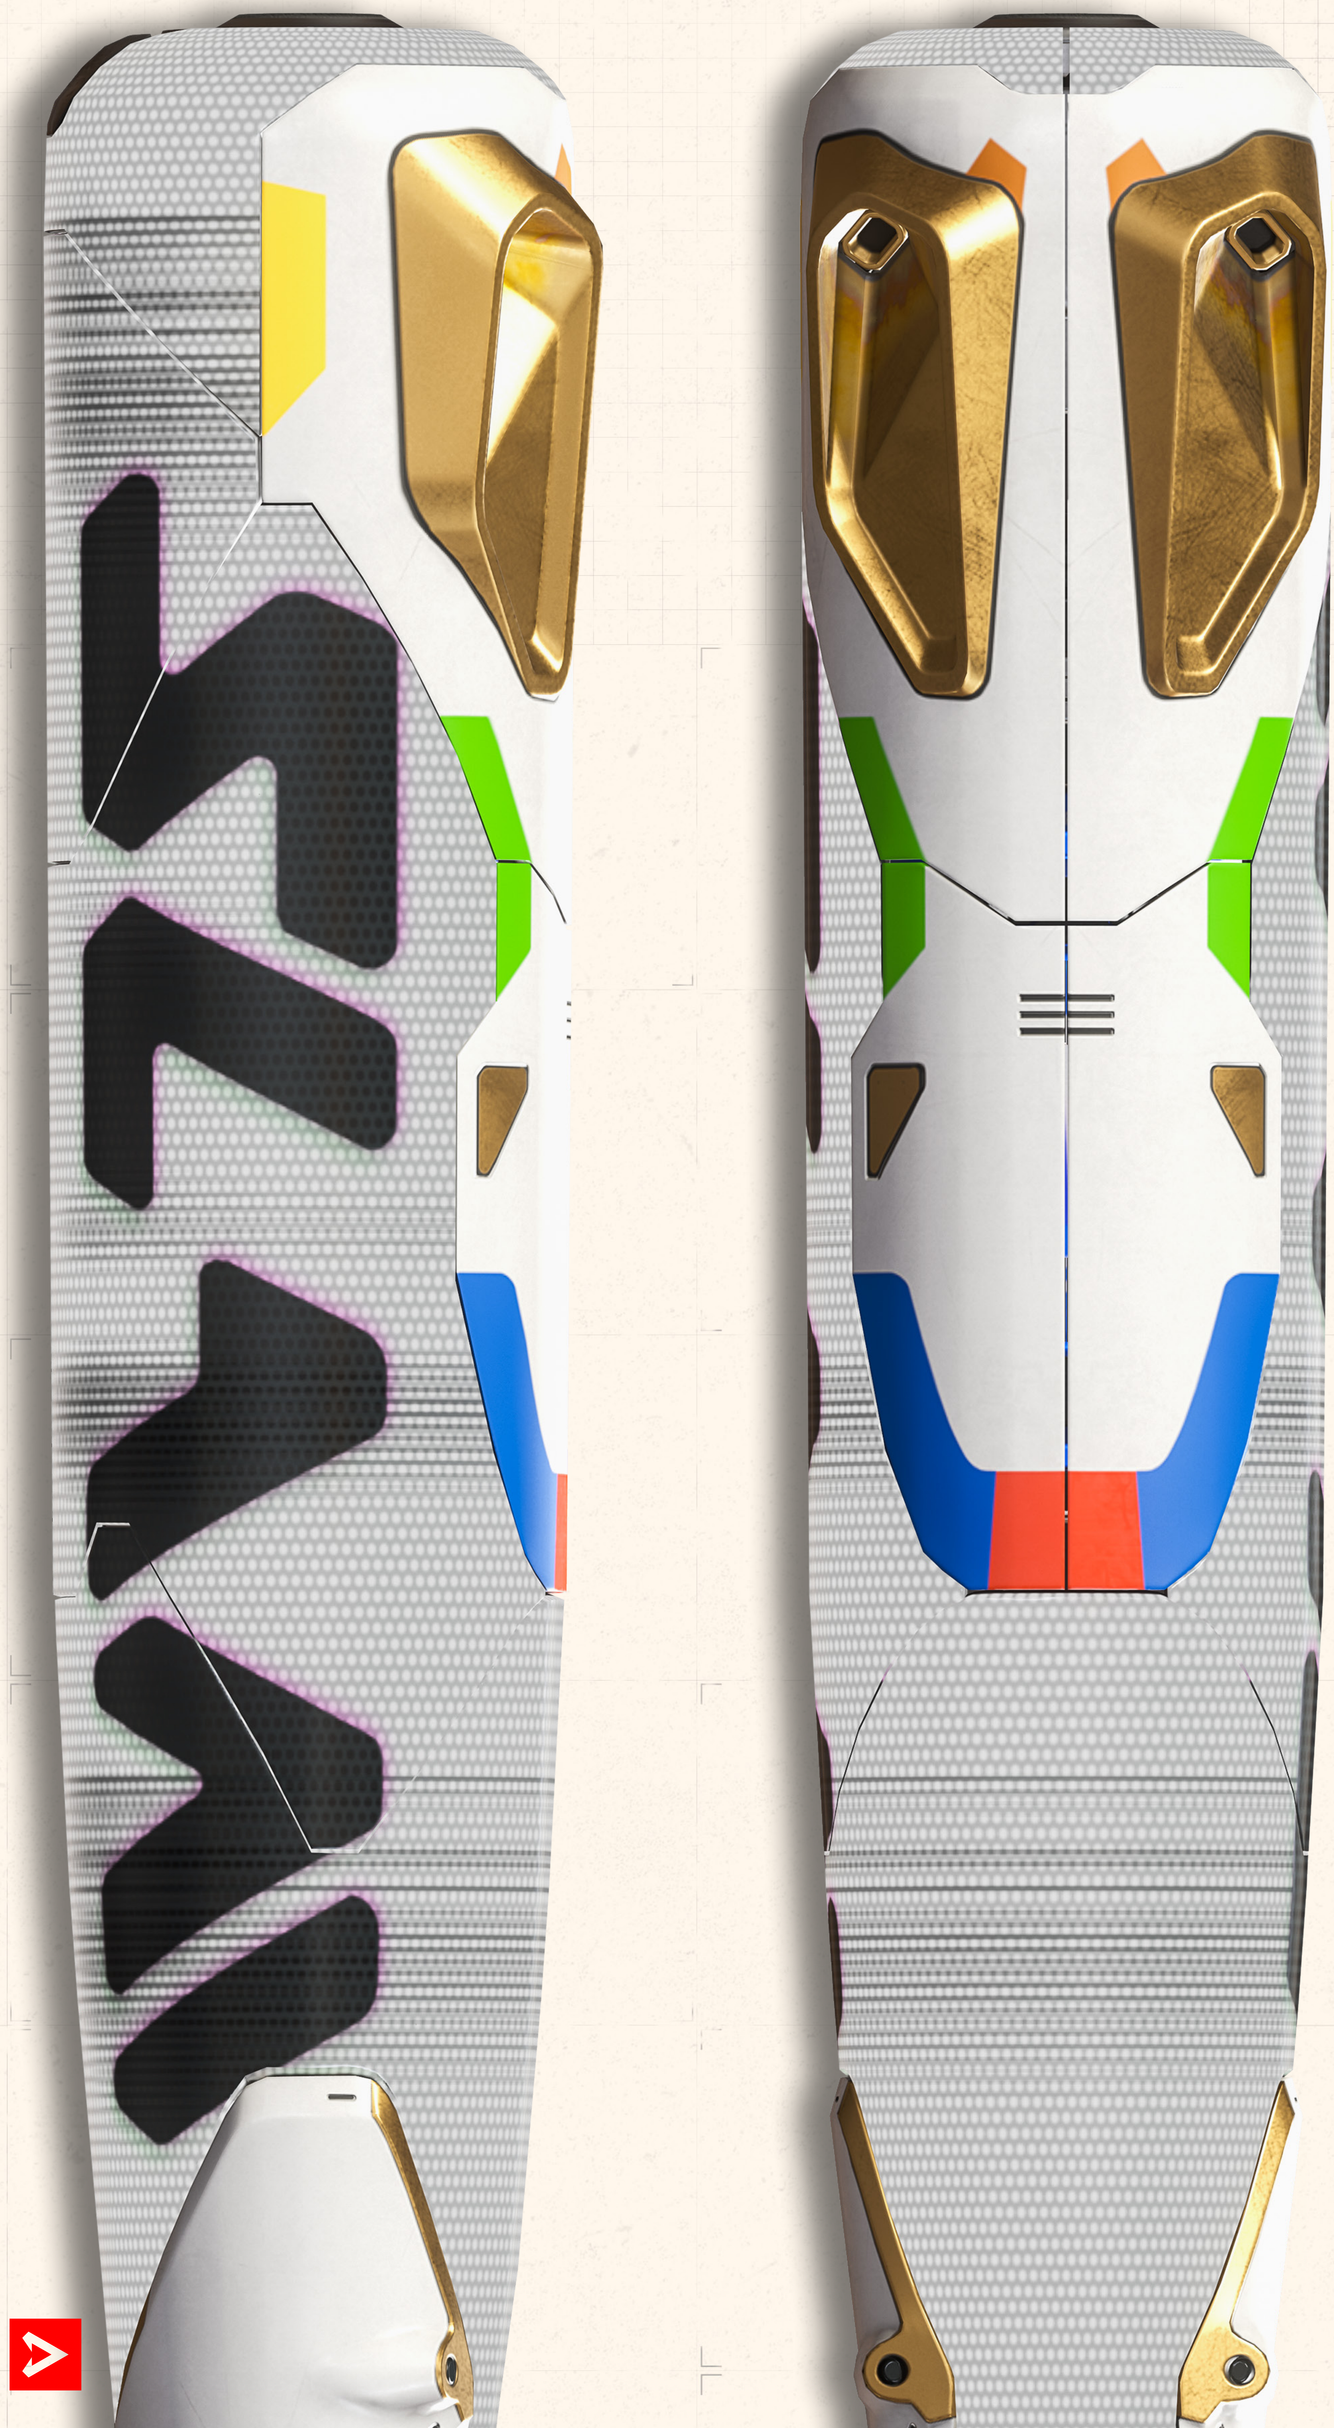

Baseball is an ancient sport that originated in the Core Systems almost 1500 years ago. The version of it played in the Outlands would still be recognizable to those first stick-ball enthusiasts: a club striking a ball thrown by a pitcher. It dots the lives of Apex Legends like Bangalore, who battled her brother Jackson for home-run supremacy as a child; Conduit, who still plays it with her younger cousins; and Vantage, who has recently made a name for herself as a power batter in the Solace City rec league.

However, it took on new life when Keiko Ootani (left fielder for Suotamo's Golden Grove Goliaths) introduced a type of bat that could only be referred to as "explosive". What started out a way to assist grand slams became a favorite in underground fight clubs and eventually made its way—in more pristine form—to the Apex Games.

DID YOU KNOW?
Bangalore gave her brother a bat signed by Ootani on the last anniversary of his faked death.
