# BOCEK

The Bocek was built for sport and leisure when it first arrived in the Frontier, but over time became a tool for hunting food when times were tough. The latest models have been designed for durability, precision and power—and are sometimes favored in combat over guns, including by the bounty hunter group: Clessidra Rossa.

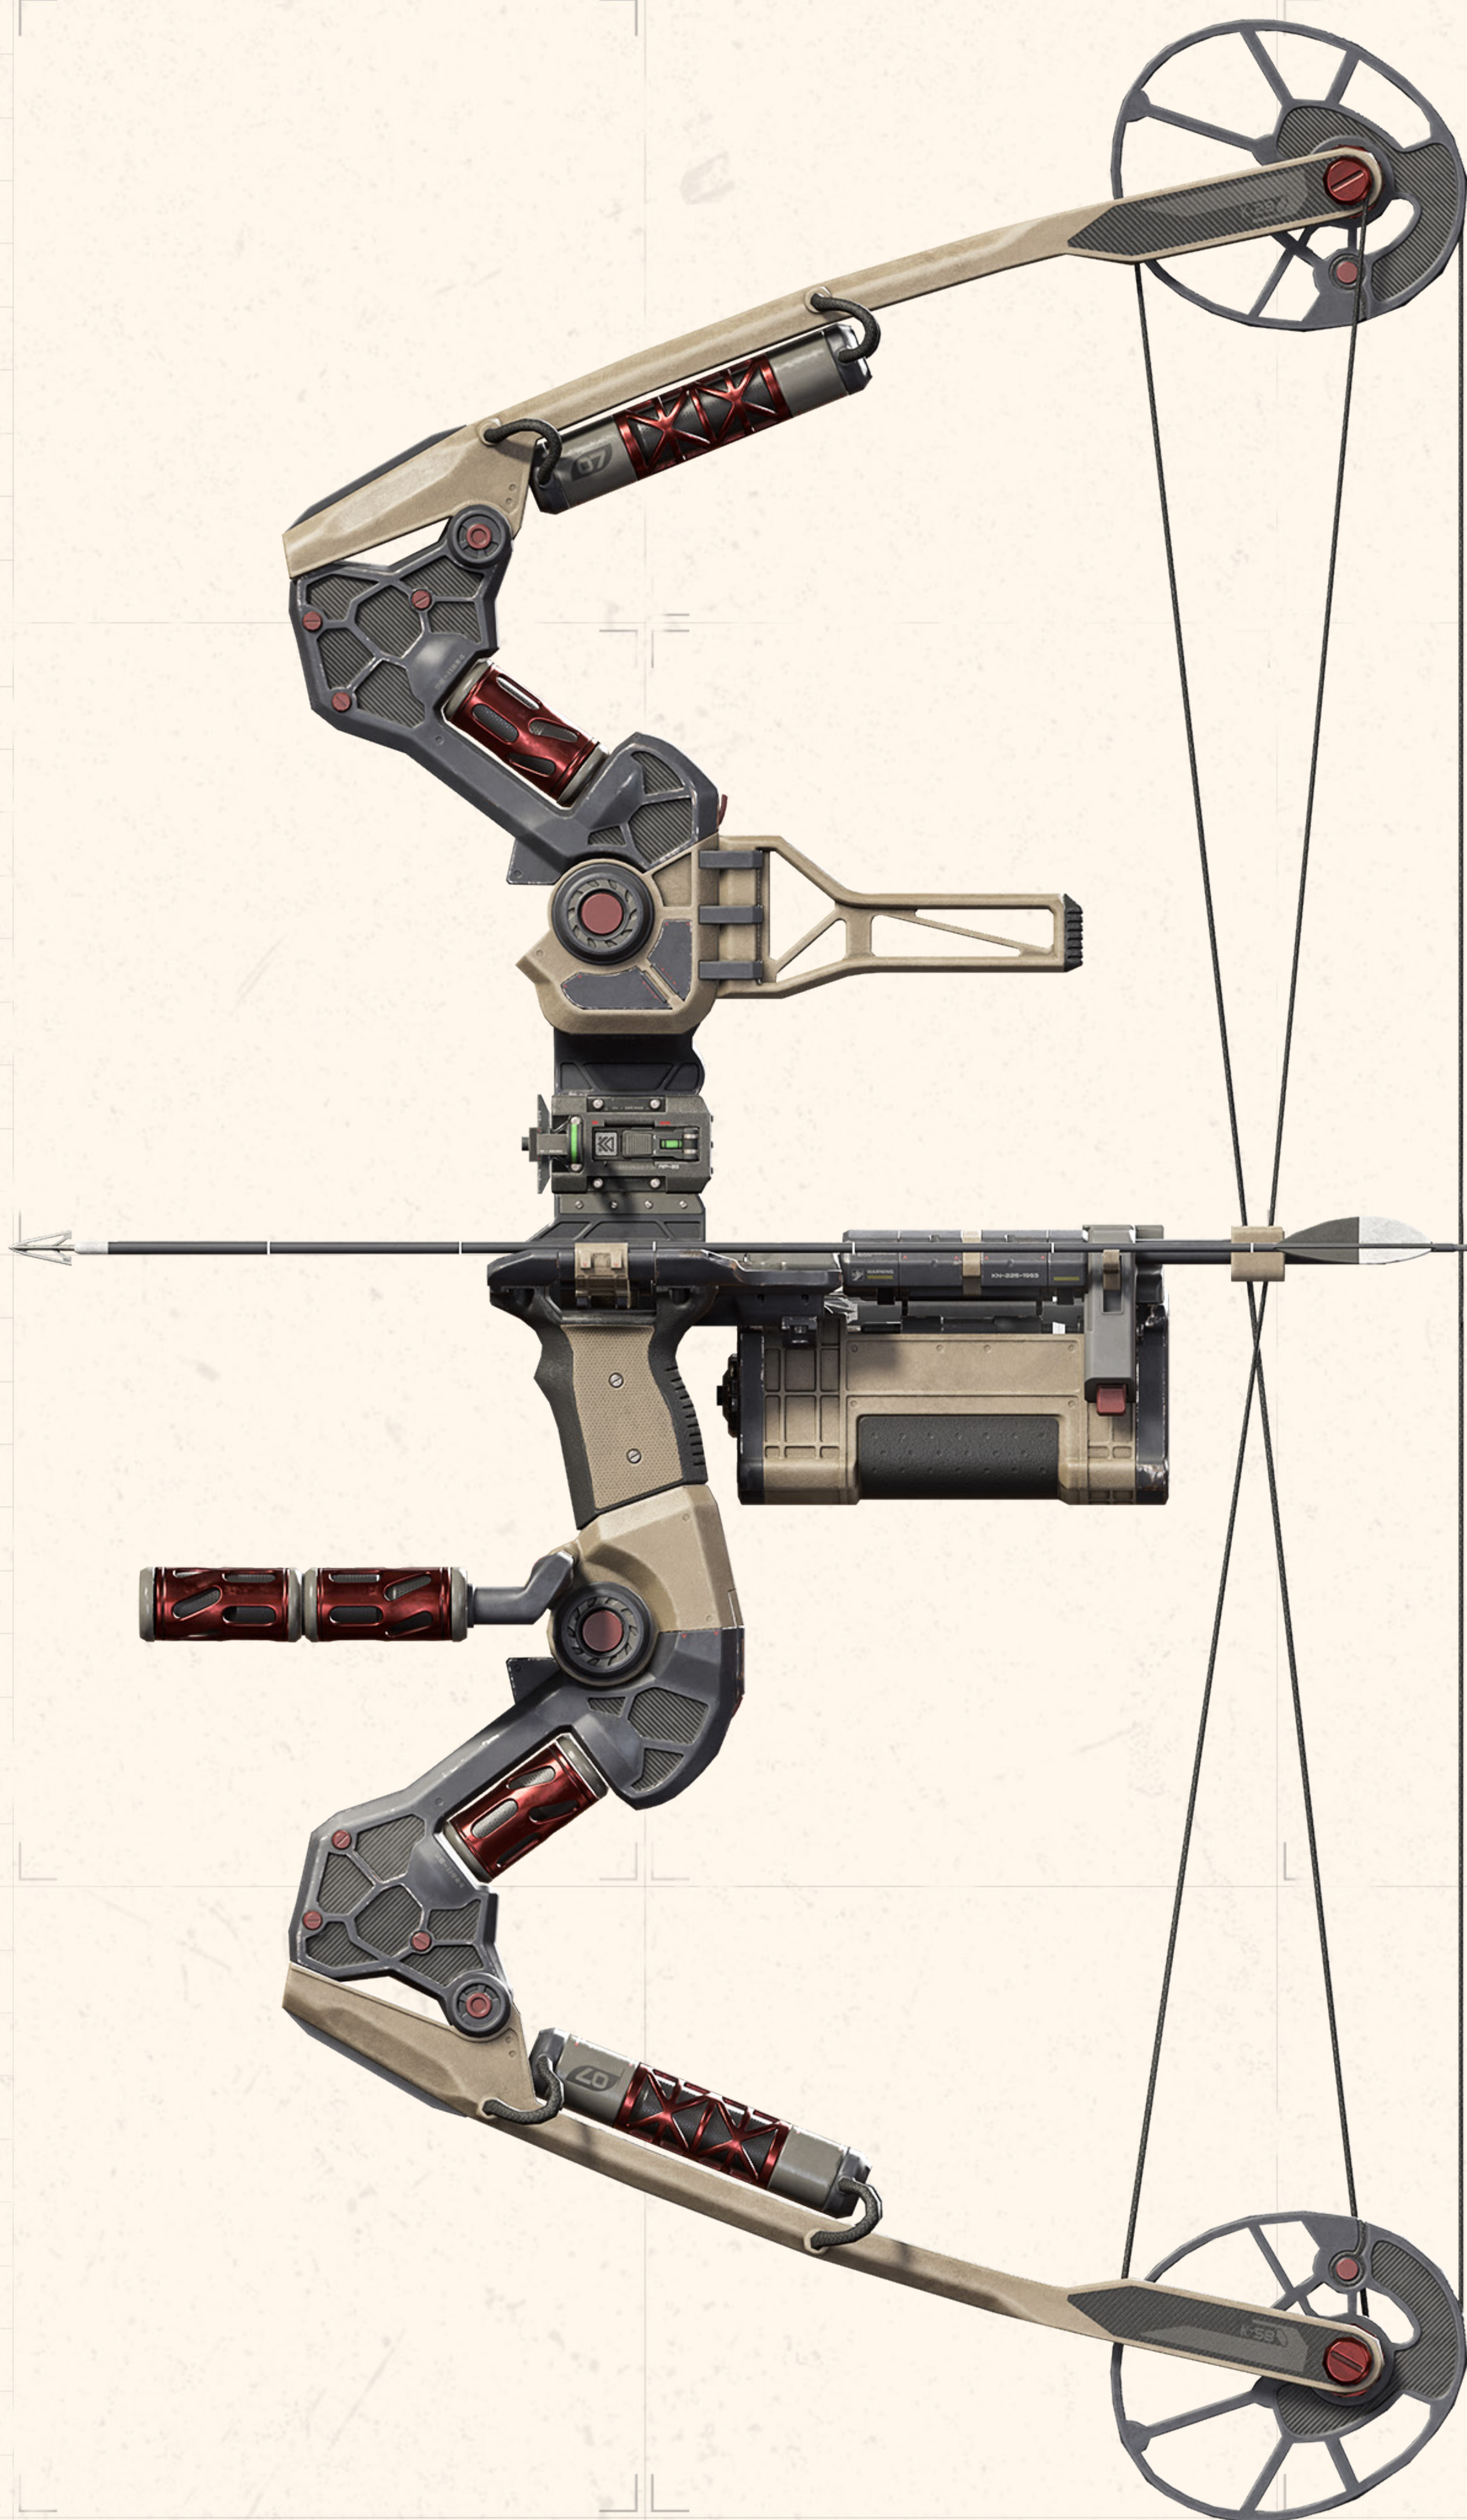

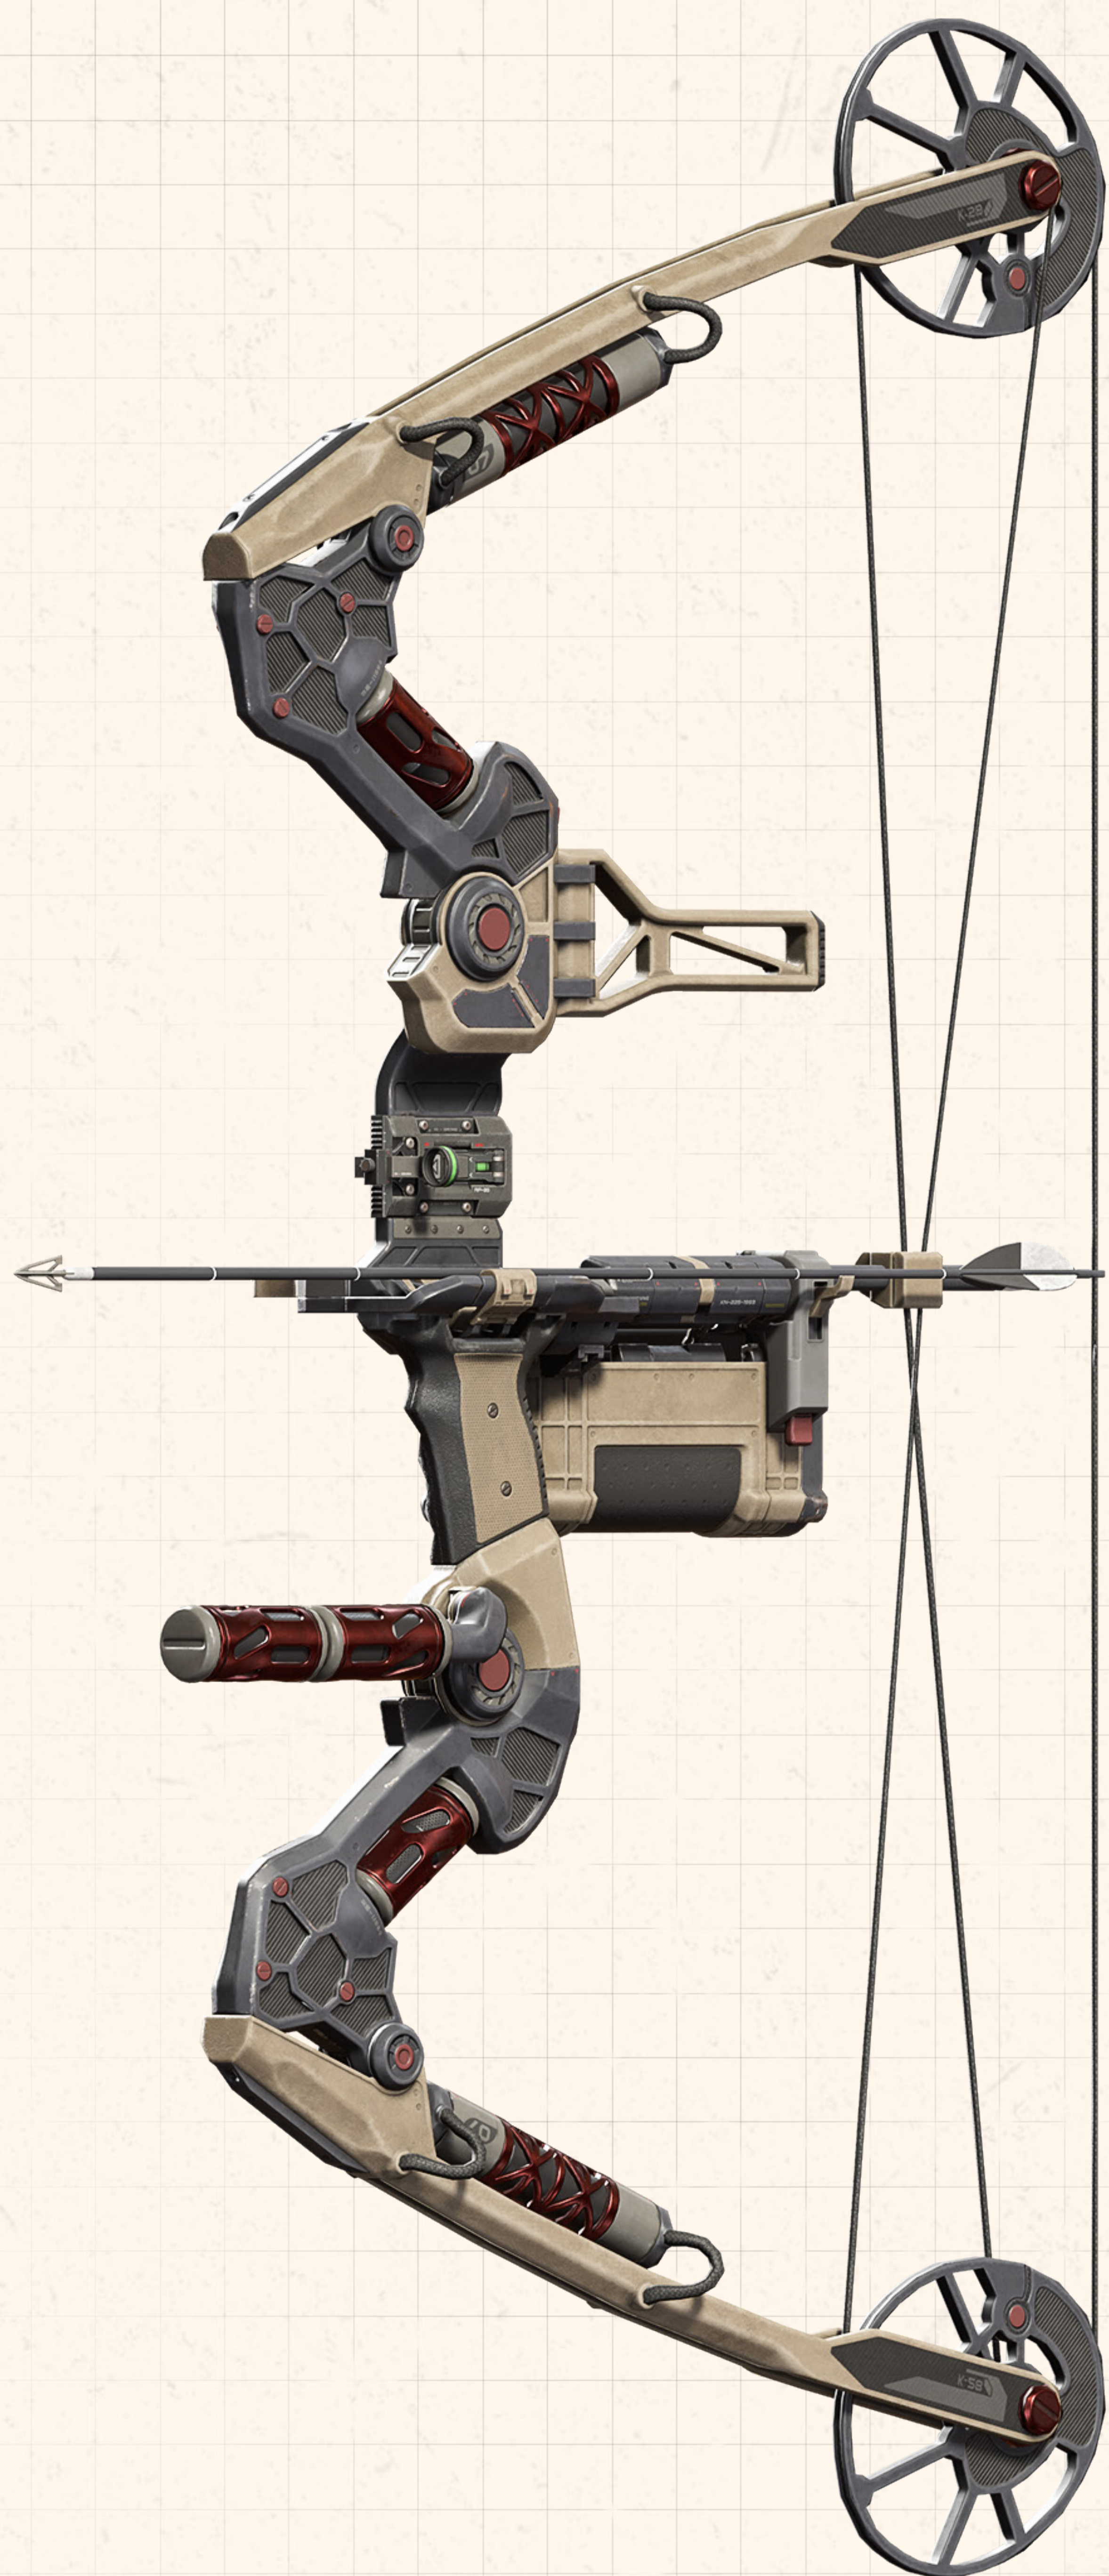

## DID YOU KNOW?

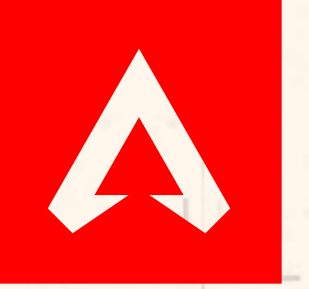

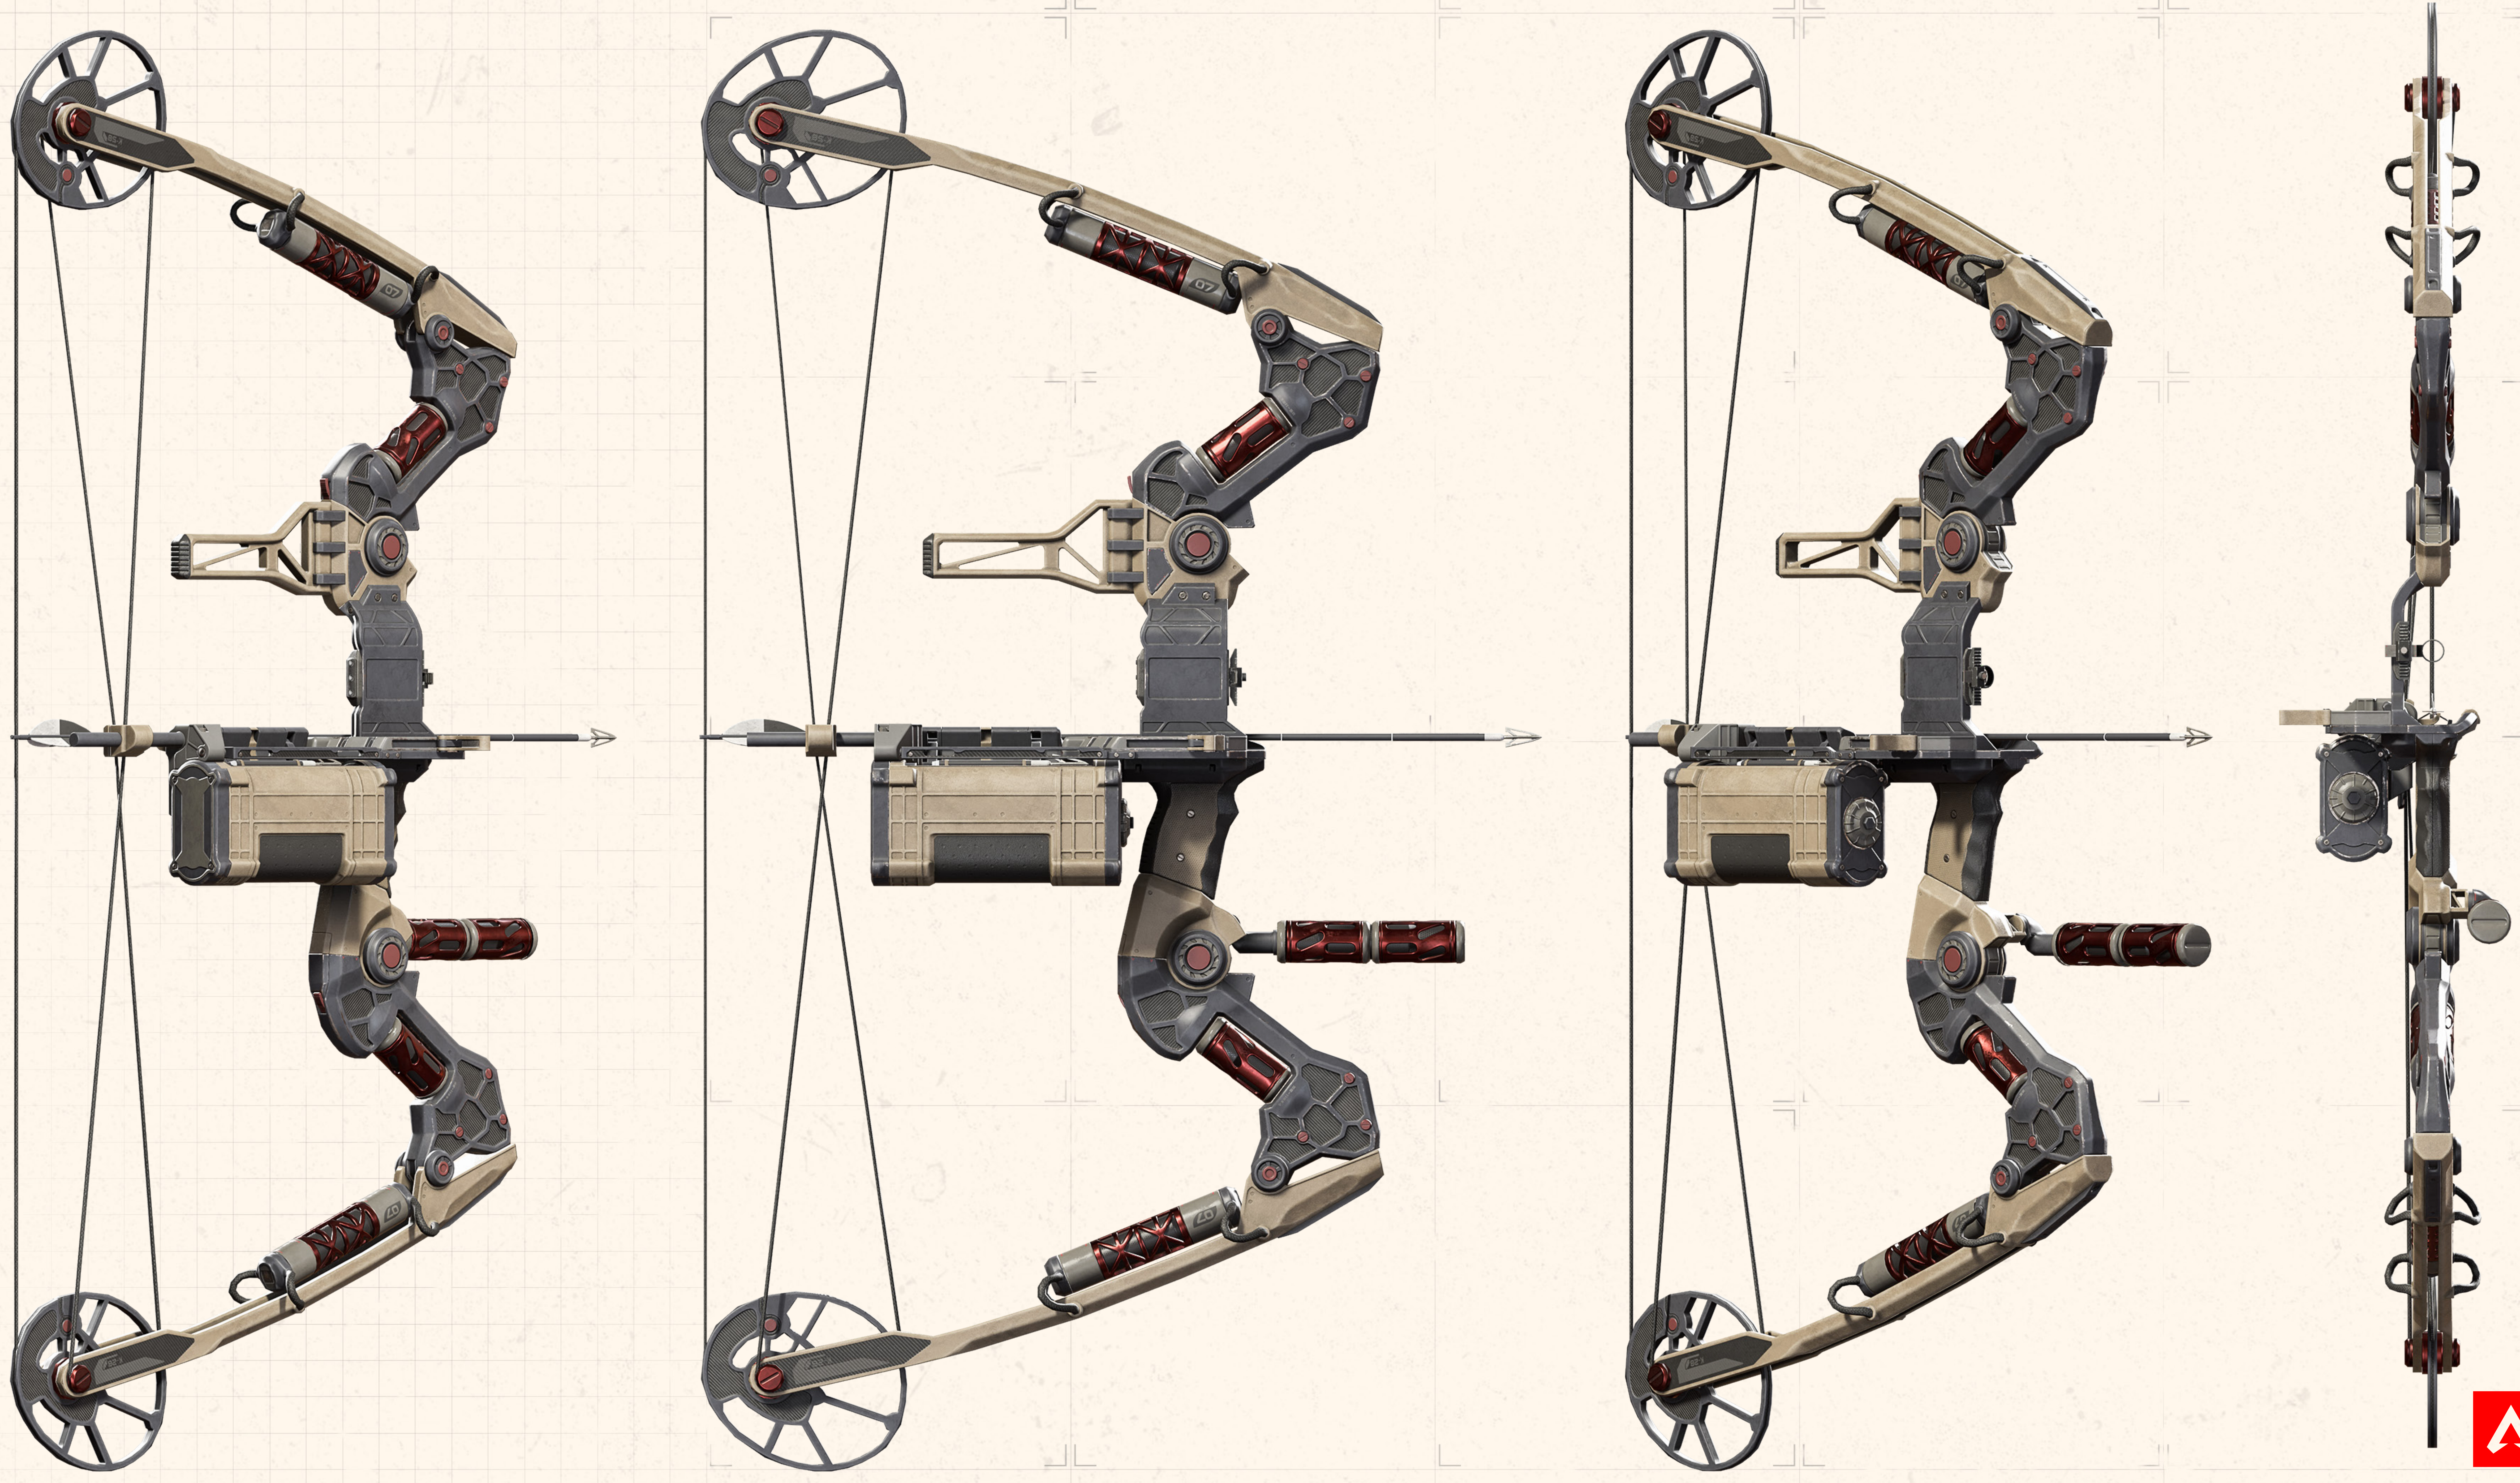

Sparrow received his very first Bocek as a birthday present at the age of 3. Of course, he was a natural.
