

POWER SWORD

PROP

GUIDE

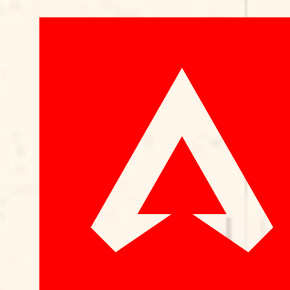

POWER SWORD

As rifts began closing across the Outlands many weeks ago, several exploded and left a huge deposit of mineral debris in their wake. The Power Sword was forged from one of these newly discovered minerals. This sword taps into each Legends' hypercompetitive Beast Mode alter ego—a power coming from within.

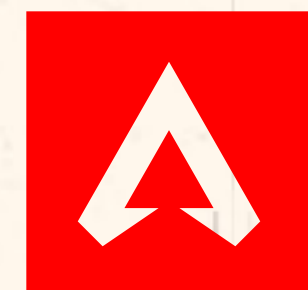

DID YOU KNOW?

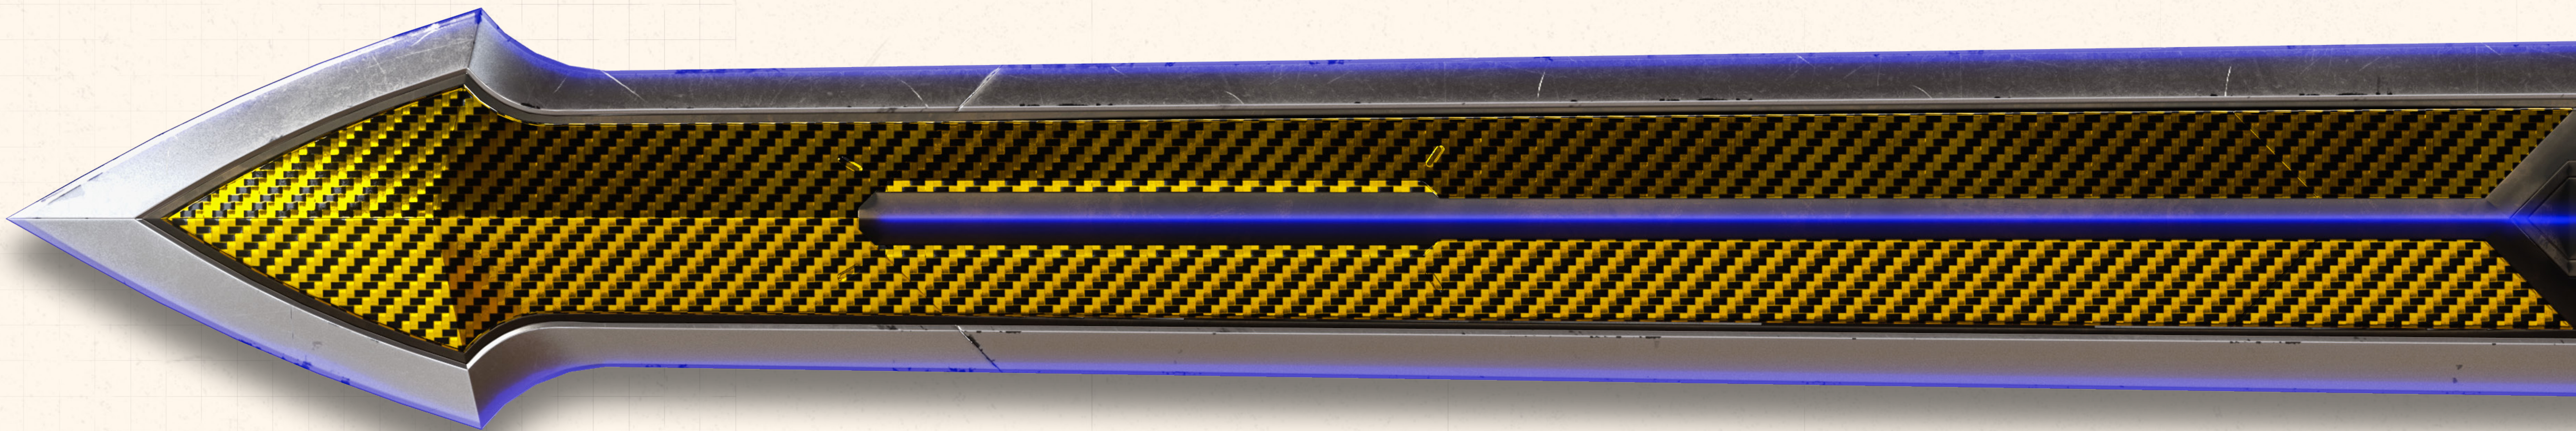

Newcastle's armor repairman Lamont Craig (aka Jackson) forged and designed the weapon for the Syndicate.
