## COMMANDER SHEPARD

Born in 2154, Commander Shepard of the Systems Alliance became a hero of humanity during the Skilian Blitz. Following it, they were identified as a candidate for the Citadel Council's Spectre program and went on to become the first human Spectre. The achievements of the Commander did not end there and even dying proved to just be an inconvenience to them during their campaign against the Reapers. Their sacrifices were many, but their choices shaped the lives of everyone in the galaxy.
