## URDNOT WREX

Wrex is a seasoned warrior, a bit of a curmudgeon, and a very good ally in a firefight. He and Shepard may not always see eye to eye, but they respect one another despite their differences. Krogan can often be written off as brutal "killing machines", but Wrex is more inclined to think things through. While he has spent many years as a mercenary, Wrex's first priority is always his people and their welfare.
